Our lips, just like other parts of our face, even more, need help with anti-ageing elements. We prepared lips exfoliation treatment and organic moisturizing mask, which will leave your lips plump and very healthy looking.

7. Jet Peel Skin Rejuvenation

A revolutionary painless treatment that deep cleanses, exfoliates, hydrates, oxygenates and rejuvenates your skin and allows products to penetrate deeper. Using a high tech skin rejuvenation device with cutting edge technology, this treatment uses only air and saline solution as it exfoliates skin layers while oxygenating and hydrating the skin at the same time. The Jet Peel allows trans-dermal delivery of nutrient supplements, mesotherapy products, vitamins and minerals without the use of needles. It gives you a glow without any abrasiveness or discomfort after just one session.

8. Dry Body Exfoliation (OPTIONAL)

This special massage uses stroking techniques, applied onto the skin using body mits (Given to you at the end). This action helps increase blood circulation while removing dead cells from the upper skin layer. This will leave your skin surface smooth and receptive for the following treatments. It is therefore often used as a pre-treatment as it stimulates the metabolism and expels toxins.
